Sir:

INTRODUCTORY COMMENTS

Pursuant to Rule 37 CFR. §§ 1.56, 1.97 and 1.98, this Information Disclosure Statement is submitted in the above-identified patent application. A listing of documents to be published on the face of any patent granted from this application is submitted on forms PTO/SB/08A and 08B. Any other documents or information submitted for consideration by the examiner are listed in this paper. A copy of each foreign patent or non-patent literature listed on forms PTO/SB/08A and 08B is submitted herewith.

Concise Statement of Relevancy
(Non-English Language Documents Only)

DE 39 00 056 A1 relates to an identification device having a plurality of optically coded labels and a reading unit for detecting the codes on the labels. Each label has a light-absorbing material, and the degree of absorption and/or the wavelength at which absorption takes place determines the code of a label. The reading unit has a light source and an optical

device and a sensor device for establishing the light absorption of a label. The labels can contain a luminescent material which, upon excitation, acts as a built-in light source.

Statement Regarding Translations
